

Packaging Supplier Questionnaire

Completed by _____

Information required under Article 16 of Regulation (EU) 2025/40 (PPWR), Annex VII

Company: _____

Date: _____

Why you are receiving this. The EU Packaging and Packaging Waste Regulation applies since 12 August 2026. For every packaging we place on the EU market we must issue a declaration of conformity and keep the technical documentation available. Only you, as our supplier, hold this information. Please complete one sheet per packaging item. If a figure is not available, write "not available" rather than an estimate. An estimate that later proves wrong is worse for both of us than an open question.

1. Item and reference

Our item number	
Your item number and description	
Packaging format sales, grouped, transport, service, primary production or e-commerce packaging	
Single use or reusable	
Country of manufacture and address of the producing plant	

2. Components, materials and weights

One row per component. A blister pack is typically tray, board backer and label.

Component	Material and code	Weight in g	Share in %	separable by hand

For plastics: exact polymer type not "plastic", but for example PET, PP, PE-LD, PVC	
For multi-material: layer structure in order, with thicknesses	
Total weight of the packaging in g	
Dimensions of the packaging	

3. Substances in packaging (Article 5)

Test report on the sum of lead, cadmium, mercury and hexavalent chromium Limit 100 mg/kg. Please attach a report from an accredited laboratory, with date and batch reference.	attached: yes / no Date: _____ Laboratory: _____
Declaration on substances of very high concern (REACH, SVHC)	attached: yes / no
PFAS intentionally added? Must be answered where there is food contact.	yes / no
Intended for food contact? If yes, please attach the relevant documentation.	yes / no

4. Recycled content and recyclability (Articles 6 and 7)

These obligations apply from 1 January 2030. We are asking now because tooling and material changes need lead time, and we need to know today where we will stand in 2030.

Current recycled content in percent, per component	
Source of this evidence certificate, supplier declaration, own calculation	
Do you consider 35 % recycled content achievable by 2030? If no, please state briefly why.	yes / no / open
Is a recyclability assessment available (design for recycling)?	yes / no Issued by: _____
Does this packaging contain PVC? PVC is critical for the recyclability performance grades from 2030.	yes / no

5. Labelling from 12 August 2028 (Article 12)

Is there space on the packaging for the material pictogram? If not, we need the tooling or print change in good time.	yes / no
Lead time for a tooling or print form change	_____ weeks
Minimum order quantity in case of a change	

6. Contact and confirmation

Name and function	
E-mail and telephone	
Valid from which date? Date from which delivered goods correspond to this state.	

Contractual undertaking (for suppliers established outside the European Union)

Article 16 of Regulation (EU) 2025/40 binds suppliers established in the European Union. Where the supplier is established outside the Union, the parties agree the following instead:

The supplier shall provide the buyer, free of charge, with all information and documentation the buyer requires in order to demonstrate conformity of the packaging under Regulation (EU) 2025/40, including the technical documentation referred to in Annex VII and the information referred to in Articles 5 to 12, in English and in a form suitable for submission to authorities. The supplier shall notify the buyer of any change to material, structure, weight or recycled content without being asked and before the next delivery. The supplier shall keep this documentation available for five years after the last delivery, and for ten years in the case of reusable packaging, and shall provide it within ten working days upon request.

Confirmation. We confirm that the information above is correct and reflects the state as at the date of signature.

Place, date

Name in block letters

Signature and company stamp
